American Hydrotech, Inc. Sponsors Green Roof Continuing Education Course

CHICAGO, ILLINOIS (March 13, 2008) American Hydrotech, Inc., provider of premium waterproofing and roofing products to the architectural and construction communities, is pleased to announce an online continuing education course on green roofs for the architectural community.

Green Roofs: A Sustainable Strategy: <http://www.aecdaily.com/en/1607002>

The course is presented by Steve Skinner, Garden Roof Program Manager. Steve joined American Hydrotech, Inc. in 2003 as Garden Roof Product Manager after a 20-year career as a soil scientist and environmental consultant concentrating on issues of sustainable development. Steve's experience with sustainable development issues has given him an awareness of the benefits and challenges of the emerging green roof industry in the U.S. and led to his assuming his current position with American Hydrotech.

Architects can earn one AIA/CES Learning Unit, including one hour of health, safety and welfare credit. In addition to AIA, the following organizations have also certified this course and will give their members credit upon completion; CSI, ASLA, RCI.

###
