BuildingGreen Participates in Greenbuild Conference & Expo

* US Green Building Council's Greenbuild International Conference and Expo, Denver, November 15-17, 2006, Colorado Convention Center

* BuildingGreen in Expo Hall: Booth 1509

* BuildingGreen to announce "Top 10 Green Building Products" and speak on various topics

Brattleboro, VT -- Visitors to the US Green Building Council's Greenbuild International Expo and Conference will have an opportunity to see BuildingGreen's information resources and talk to the people behind the company's publications at Booth 1509.

BuildingGreen's booth will offer demonstrations of the BuildingGreen Suite. Visitors will learn more about individual, firm-wide and campus-wide access to this online resource, which includes articles, reviews, and news from Environmental Building News, product listings from the GreenSpec® products directory, and project case studies from the High-Performance Buildings Database.

In addition, Alex Wilson, Executive Editor of Environmental Building News, will announce the 2006 Top-10 Green Building Products on Wednesday, November 15 at 1 pm in Room 610-612 at the Colorado convention center. This fifth annual award recognizes the best products recently added to the GreenSpec directory of environmentally preferable building products.

Nadav Malin, editor of Environmental Building News and executive editor of GreenSource, a new magazine presented by McGraw-Hill, is part of a panel discussion, "The Gauging Green" at 2 p.m. on November 15, Room 503/504.

Jim Newman, Director of Online Services for BuildingGreen, will speak on "Building a Successful Integrated Team with Contractors" at 10:30 a.m., November 15, Rooms 702/704/706. Mr. Wilson will also assist in announcing the winners of the USGBC Natural Talent Design Competition, organized by the USGBC Emerging Green Builder chapter. BuildingGreen is a competition sponsor. The competition, in its fourth year, gives entrants experience in the principles of integrated design, sustainability, innovation, and social consciousness in regional projects that embody the LEED Green Building Rating System. Projects are located in Sacramento, CA, New York City, and Cincinnati, OH. This year's Greenbuild Expo offers extensive educational programming, workshops, an exhibition floor, and networking events. For information, go to www.greenbuildexpo.org or contact the U.S. Green Building Council at 202-742-3818.

About BuildingGreen, Inc. www.BuildingGreen.com

BuildingGreen, Inc., is an independent publishing company committed to providing accurate and timely information that helps building professionals improve the environmental performance of buildings and surrounding landscapes. BuildingGreen offers both print and electronic resources to help firms design and construct buildings that minimize environmental impacts while maximizing economic performance. Its products are supported by subscriptions rather than advertising.

The National Building Museum, created by an act of Congress in 1980, is a private, nonprofit institution, in Washington, DC, that examines and interprets achievements in building through exhibitions, education programs, publications, and its collection. Public inquiries: call 202-272-2448 or visit www.nbm.org.
