JDR Enterprises, Inc. Announces New Greenroof Web Pages

ATLANTA, Georgia – November 29, 2004 – JDR Enterprises, Inc. is proud to announce the launch of their new web pages to assist clients with the design of their greenroofs. JDR Enterprises, Inc. goal is to manufacture, supply, and promote the most efficient, high quality green roofing drain components and technology to our community. Our 15-page Greenroof Booklet is available in PDF format to help clients learn about related greenroof technology.

Users should search from the homepage, www.j-drain.com, to locate the following 'Green Roof Systems' information:

- ❖ **Advantages of greenroofs.** JDR Enterprises, Inc. believes greenroofs are about 'altitude' and 'attitude', and are a viable solution to the environmental problems we face today.
- ❖ **Components of greenroofs.** The success of a greenroof depends on the thorough understanding of all components and also the specific needs and conditions of each particular site.
- ❖ **Applications.** We understand each greenroof is unique and must be designed accordingly.

JDR Enterprises is committed to assisting our clients to be successful with the implementation of their plans for greenroofs. We have engaged direct professional assistance as a key part of our strategy to deliver quality customer service for Greenroofs. Janet Faust is an Environmental Horticulturist and JDR's Greenroof Product Manager. Janet is a LEED Accredited Professional. She brings to the company an extensive range of greenroof expertise and can assist clients in selecting the appropriate drain components for a successful greenroof. She provides technical support to landscape architects, architects, contractors, and installers for greenroof projects. For greenroof assistance, contact us above or at jdrdw@mindspring.com or 1.800.843.7569 or 770.442.1461.
