

AMERICAN HYDROTECH, INC.

HORTICULTURIST

Challenging opportunity to join a successful specialty roofing and waterproofing manufacturer to help drive our growth in North America. American Hydrotech is a 33-year old industry-leading firm who seeks an individual with proven skills to help grow our successful green roof program.

Responsibilities to include:

- manage plant program
- develop plant lists for green roofs for all areas of the country
- manage green roof maintenance program
- interaction with architects, landscape architects, owners and installers
- help and track projects from design through completion
- attend industry trade shows, conferences and seminars to maintain and increase green roof market leadership

Individual must have a degree in horticulture or related discipline, coupled with a strong understanding of soil science AND five years of experience. Experience within the green roof industry is a plus

We seek a self-starter who is a team player with good communication and computer skills.

Please check our website: hydrotechusa.com. We offer top salary, bonus and profit sharing + 401K and excellent medical benefits. Chicago lakefront location. www.hydrotechusa.com

Please e-mail resume to grmanager@hydrotechusa.com. No phone inquiries, please.

Thank you.
