Alpharetta, GA. The Greenroofs.com [Greenroof Directory](#) is a web-based green pages locator and lead generator for greenroof **Manufacturers, Suppliers, Professional Services, Organizations, Students, & Green Resources**. Until now only the *Students and Green Resources* sections have been available free of charge, while *Manufacturers, Suppliers, Professional Services, and Organizations* have been listed through an advertising fee.

Yearly, we receive numerous inquiries from across the globe asking for local advice from local organizations, and spend a lot of time answering phone and email requests – in the spirit of “Think Globally, Act Locally,” we believe this data should be easy to find and readily available at the touch of a search button.

So in an outreach effort in our role as the open and unbiased “*greenroof industry resource and online information portal*” and to further knowledge sharing, Greenroofs.com is now pleased to extend a free Standard Listing in [The Greenroof Directory](#) to all non-profit organizations including university/educational programs, professional associations, and governments at all levels relating to greenroof projects, education, research, and policy.

Your listing will be easily searchable by name, location and category, and will look like this:
